1st

2nd

6

Insert the Spacer and align correctly.

5

Remove the Jig and clear out the debris.

Must be wearing eye protection

4

Use the 25mm hole saw and drill into the door end for the latch.

8

Fit the handles and secure with two machine screws.

9

Fit the rose and secure with grub screw.

10

Test the handle and stop the timer!

In order to be considered a valid entry, entrants must:

- Undertake to complete the installation of a Jigtech handle system at the Event Location using the Jigtech installation demonstration equipment supplied by the Promoter.
- Start and stop their own timer.
- Start from a standing position with the tools lined up by the Promoter on the floor.
- Use the same tools, provided by the Promoter.
- Follow the correct installation procedure which will be demonstrated by the Promoter at the Event Location.
- Fit all components correctly and working as designed, or the attempt will not be counted.
- All decisions on times recorded will be under the supervision, and sole decision of the Promoter umpire.
- Entrants must not be intoxicated during the challenge and must behave in a sensible manner at all times.
- Permit the recording of the time of the complete installation.

All decisions on times recorded will be under the supervision, and sole decision of the Promoter umpire.
